**Fertilizer:** Cockadoodle DOO is a Portsmouth company that's pushed a certain envelope to the limit. Artisan manure? Well, we're buying it. It's not just the clever name, there's something charismatic about this fertilizer. Maybe it's the fact that you can download the Cockadoodle song from iTunes, or the fact that it's organic (apparently not all manure qualifies) and, according to their Web site ([www.purebarnyard.com](http://www.purebarnyard.com)), it's completely safe for kids and pets.
